EDUCATION

Vrije Universiteit Amsterdam
Bachelor of Science, Computer Science

Amsterdam, NL
Sep 2025 – Sep 2028

EXPERIENCE & PROJECTS

StudyBot | *Python, Telegram API, Groq API* 2025

- Built a custom Telegram bot connected to Groq API that turns study materials into active recall questions.
- Supports PDF uploads, approve/reject filtering, scheduled question delivery, and weak-topic tracking.
- Generated over 130 vetted questions in one week.

Daily Briefing | *Node.js, Express, Groq API, NewsAPI, Reddit API* 2025

- Developed an AI-powered news dashboard aggregating Reddit and NewsAPI feeds.
- Integrated Groq LLM for AI-generated summaries.
- Proxied multiple APIs through an Express backend.

Startup Evaluation Tool | *Python, Flask, SQLite, Groq API, Hacker News API* 2025

- Built a Flask web app as a daily startup judgment trainer using Hacker News and Groq LLM.
- Fetches Show HN posts, structures startups for evaluation, then reveals AI-generated critique post-submission.
- Sessions persist in SQLite with full history tracking.

Head of Mod Development Sep 2021 – Sep 2023
Hearts of Iron IV Community

- Built, maintained and optimized a multisystem mod using Paradox's scripting framework, reaching hundreds of downloads.
- Achieved approximately 30% improvement in in-game performance through mod optimization.

Community Manager Sep 2021 – Sep 2023
Hearts of Iron IV Community

- Grew community from 30 to over 500 members, leading a team of 8 moderators.
- Organized over 50 events with over 80% capacity fill rate and brokered partnerships yielding 2 competitive tournaments.
- Designed community advertising systems and tracked member analytics via spreadsheets.

VOLUNTEERING

Discussion Co-lead Aug 2026 – Present
Safe AI Netherlands (SAIN) Amsterdam, NL

- Organize the weekly discussion sessions, from scheduling through to running them on the day.
- Select the paper topics each week and prepare the material the group works through.
- Guide the discussion on the day, keeping it on track and drawing out contributions from attendees.

Co-Organizer Apr 2026 – Present
AI Spring Amsterdam Amsterdam, NL

- Co-organize weekly AI paper reading events at VU Amsterdam: logistics, topic suggestion, and hosting.
- Co-organized the July 2026 end-of-year AI papers showcase with Safe AI Netherlands (SAIN) and AISO.
- Presented an overview of Chain-of-Thought improvements toward more efficient LLM reasoning at that showcase.

CERTIFICATIONS

Anthropic Academy: Introduction to Subagents; Introduction to Model Context Protocol; Claude Code in Action;
AI Fluency: Framework & Foundations
Databricks: Academy Accreditation, Generative AI Fundamentals

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, HTML/CSS, Assembly (x86, JVM), MATLAB
Frameworks & APIs: Flask, Node.js, Express, Telegram API, Groq API, NewsAPI, Reddit API, Hacker News API
Developer Tools: Git, SQLite, Claude Code
Spoken Languages: Croatian (native), English (C1), Dutch (A2), German (A2)
